Why Use Driver Licence Checking Through Total Compliance?

This service enables organisations to actively manage driver licence eligibility ensuring driver risk is reduced and compliance is assured. An essential process for organisation with employees that drive on work related business.

Convey is an approved IT supplied for the DVSA Earned Recognition scheme which we consult on and are also approved audits for. It is also linked to other services which enable support for FORS and driver training to allow us to assist you further with compliance and efficiency.

Be Compliant, Stay Compliant

Compliance with EU and UK government legislation is an imperative for all transport operators.

Licence check manages the full driver consent process, with e-consent option, which is valid for 3 years. Ensuring data protection compliancy.

Licence check makes it easy for you to monitor performance, comply with legal requirements and most importantly, keep your drivers on the road.

With Licence Check You Will...

- Gain all the tools you need to manage driving compliance
- Be free to automate and streamline essential processes
- Easily access and act on all driver and vehicle information in one place, including driver risk
- Dive deeper into driving compliance with reporting, alerts, warnings, notifications and a clear audit trail
- Minimise your own company risk when it comes to driving compliance
- A single view of fleet roadworthiness
- Confident in vehicle safety

With Reassurance That Licence Check Is:

- The highest licence checking provider based on customer reviews (rated 5 star)
- A mix and match platform, you'll only ever pay for the service(s) you need
- Committed to providing free, top-class support – available 5 days a week
- A safe and secure environment to store your sensitive data
- Analysing data provided by the DVLA

How Long Does It Take to Set Up?

We complete a form with you and then set up each driver for you. This can be done as soon as we receive the information from you.
